

SKID PLATE FOR BETA

298548

298548-32

298548-12

FEATURES

Latest generation skid plate made of high-strength plastic with integrated fin	Presence of unloading areas to give more lightness, ventilation and facilitate washing operations inside the skid plate
Fin designed to protect the shock absorber linkage from impacts, mud and sand allows you to slide easily over natural obstacles (whoops, stones, logs) ensuring a smooth ride	Design studied to reduce the entry of mud and debris into the engine
The design ensures maximum adherence to the link	Compatible with simultaneous use of X-POWER
6 mm thickness for maximum protection of the frame and engine	Using the two screws supplied and using the original bike attachments, it is possible to fasten and remove the skid plate quickly.
Extended protection areas on the side casings, on the valve adjustment cover and in the footrest frame area	Weight: 885g

278058-12

278058-32

FEATURES

Latest generation skid plate that allows it to glide smoothly over natural obstacles (whoops, rocks, logs) ensuring a smooth ride. Offers maximum protection to the frame and engine. Extended protection areas on the side crankcases, water pump and footpeg area frame areas. Presence of exhaust areas to give more lightness, aeration and facilitate washing operations inside the under-engine.

Designed to reduce the entry of mud and debris. Compatible with simultaneous use of acerbis x-power (ignition and clutch housing protection). Mounts easily through the original holes on the frame. Mounting kit included.

FEATURES

CONSTRUCTION AND DESIGN:
Design studied for optimal protection of the frame and engine.
The impact resistant material effectively protects against stones, earth and mud.
Flexible, lightweight plastic reduces vibration and surface damage to the frame and engine.

The air intakes are designed to ensure excellent ventilation of the engine, while reducing the entry of gravel, earth and mud.
Intuitive and quick assembly / disassembly for normal engine maintenance and washing operations.

FEATURES

Latest generation sub-engine with integrated fin
Co-molded fin designed to protect the shock absorber linkage from impact, mud and sand. Allows easy sliding over natural obstacles (whoops, stones, logs) ensuring a smooth ride.
Design ensures maximum grip on the link
6mm thickness for maximum frame and engine protection
Extended protection areas on the side crankcases, water pump, and in the areas of the frame footrest area
Presence of drainage areas to impart more lightness, aeration, and facilitate washing operations inside the sub-engine

Design studied to reduce the ingress of mud and debris
Compatible with simultaneous use of X-Power (Ignition and Clutch Crankcase Protection)
Protection of the side crankcases, on the water pump and in the areas of the frame footrest area
It is easily mounted by taking advantage of the frame sleeper near the mono-shock absorber and through two supplied screws that use the two original slots in the front
Possibility of simultaneous use with x-power
Two-tone nameplate with logo
Weight: 700g

FEATURES

Last generation skid plate with built-in fin
Printed fin designed to protect the suspension link from impacts, mud and sand. It allows the bike to easily slide over natural obstacles (whoops, rocks, trunks) Its design ensures the best cover around the link, thus guaranteeing a clean ride
Plastic 6mm thick for the best frame and engine protection
Protection areas extended over the engine covers, on the water pump and on the foot peg mounts

Discharge areas to improve lightness and airflow and to ease the cleaning process behind the skid plate
Design developed to reduce the presence of mud and debris around the engine
Possibility to combine its use with X-POWER (clutch and ignition cover protection)
Carbon look refinishing
Easy mounting on the original fastenings of the bike

PRODUCT DETAILS

Skid plate realised in two joined sections: | Highly impact-resistant plastic skid plate | Fin for suspension link protection: blend rubber + plastic which allows resistance to impacts and better elasticity

Made In: Italy

SKID PLATE FOR KAWASAKI 298691

298691-12

298691-72

FEATURES

Latest generation skid plate that allows it to glide smoothly over natural obstacles (whoops, rocks, logs) ensuring a smooth ride.
Offers maximum protection to the frame and engine.
Extended protection areas on the side crankcases, water pump and footpeg area frame areas

Presence of exhaust areas to give more lightness, aeration and facilitate washing operations inside the under-engine
Design designed to reduce the entry of mud and debris
Protection of the side crankcases, on the water pump and in the areas of the frame footrest area

FEATURES

Latest generation sub-engine with integrated fin
Co-molded fin designed to protect the shock absorber linkage from impact, mud and sand. Allows easy sliding over natural obstacles (whoops, stones, logs) ensuring a smooth ride.
Design ensures maximum grip on the link
6mm thickness for maximum frame and engine protection
Extended protection areas on the side crankcases, water pump, and in the areas of the frame footrest area
Presence of drainage areas to impart more lightness, aeration, and facilitate washing operations inside the sub-engine

Design studied to reduce the ingress of mud and debris
Compatible with simultaneous use of X-Power (Ignition and Clutch Crankcase Protection)
Protection of the side crankcases, on the water pump and in the areas of the frame footrest area
It is easily mounted by taking advantage of the frame sleeper near the mono-shock absorber and through two supplied screws that use the two original slots in the front
Possibility of simultaneous use with x-power
Two-tone nameplate with logo
Weight: 700g

FEATURES

CONSTRUCTION AND DESIGN:
Design designed for optimal protection of the chassis and motor.
Fin designed to protect the shock absorber linkage from impacts, mud and sand. It allows you to easily slide over natural obstacles (Whoops, stones, logs) ensuring a smooth ride. The design ensures maximum adherence to the link
Impact resistant material effectively protects against stones, earth and mud.
Flexible and lightweight plastic reduces vibration and surface damage to chassis and engine
The air intakes are designed to give more lightness, aeration and facilitate the washing operations inside the sub-engine, reducing the entrance of gravel, earth and mud.

Exploiting the original attacks of the bike the assembly/ disassembly is intuitive and to facilitate the normal maintenance and washing of the engine.
Extended protection areas on the side housings, on the water pump and in the chassis areas
Compatible with simultaneous use of X-Power (Ignition and clutch housing protection)

SKID PLATE FOR KTM 279168

279168-

279168-237

279168-

279168-315

FEATURES

Last generation skid plate with built-in fin
Printed fin designed to protect the suspension link from impacts, mud and sand. It allows the bike to easily slide over natural obstacles (whoops, rocks, trunks) Its design ensures the best cover around the link, thus guaranteeing a clean ride
Plastic 6mm thick for the best frame and engine protection
Protection areas extended over the engine covers, on the water pump and on the foot peg mounts

Discharge areas to improve lightness and airflow and to ease the cleaning process behind the skid plate
Design developed to reduce the presence of mud and debris around the engine
Possibility to combine its use with X-POWER (clutch and ignition cover protection)
Carbon look refinishing
Easy mounting on the original fastenings of the bike

PRODUCT DETAILS

Skid plate realised in two joined sections: | Highly impact-resistant plastic skid plate | Fin for suspension link protection: blend rubber + plastic which allows resistance to impacts and better elasticity

Made In: Italy

FEATURES

Latest generation skid plate with integrated fin
Fin designed to protect the linkage of the shock from impacts, mud and sand. It allows you to easily slide over natural obstacles (Whoops, stones, logs) ensuring a smooth ride. The design ensures maximum adherence to the link
It offers maximum protection to the chassis and motor.
Extended protection areas on the side housings, on the water pump and in the chassis areas
Presence of exhaust areas to give more lightness, ventilation and facilitate the washing operations inside the skid plate

Design designed to reduce the ingress of mud and debris
Possibility to combine its use with Acerbis X-Power (clutch and ignition cover protection)
Protection of the side housings, on the water pump and in the areas of the chassis
Easily mounts by taking advantage of 2 original holes and an integrated bracket that hugs the frame, making it stable and sturdy mounting
Two-tone label with logo.

APPLICATIONS

FANTIC XXF 450 2024 2025 | YAMAHA WR 450 F 2024 2025 | YAMAHA YZ 450 F 2023 2024 2025 | YAMAHA YZ 450 FX 2024 2025

FEATURES

- CONSTRUCTION AND DESIGN:
Next generation sub-engine made with high strength plastic with integrated fin
Fin designed to protect the shock absorber linkage from impacts, mud and sand. It allows you to slide easily on natural obstacles ensuring a smooth ride. The design ensures maximum adherence to the link
Impact resistant material effectively protects against stones, earth and mud.
Flexible and lightweight plastic reduces vibration and surface damage to chassis and engine
The air intakes are designed to give more lightness, aeration and facilitate the washing operations inside the sub-engine, reducing the entrance of gravel, earth and mud.
- Using the original bindings of the bike the assembly/ disassembly is intuitive to facilitate the normal maintenance and washing of the engine.
Extended protection areas on the side housings, on the water pump and in the chassis areas
Compatible with simultaneous use of X-Power (Protection crankcase ignition and clutch)

FEATURES

Latest-generation skid plate with integrated fin
Co-moulded fin designed to protect the shock absorber linkage from impacts, mud and sand. It allows easy sliding over natural obstacles (whoops, stones, logs) ensuring a smooth ride. Design ensures maximum linkage grip
6mm thickness for maximum chassis and engine protection
Extended protection areas on the side casings, water pump and footpeg areas of the chassis
Presence of exhaust areas to give more lightness, ventilation and facilitate washing inside the skid plate

Design to reduce mud and debris ingress
Compatible with simultaneous use of X-Power (ignition crankcase and clutch protection)
Protection of the side crankcases, on the water pump and in the frame areas around the footrests
It is easily mounted by using the frame cross-member near the single shock absorber and by means of two supplied screws using the two original slots at the front
Two-tone logo plate
Weight: 700g

FEATURES

Latest generation sub-engine with integrated fin
Co-molded fin designed to protect the shock absorber linkage from impact, mud and sand. Allows easy sliding over natural obstacles (whoops, stones, logs) ensuring a smooth ride.
Design ensures maximum grip on the link
6mm thickness for maximum frame and engine protection
Extended protection areas on the side crankcases, water pump, and in the areas of the frame footrest area
Presence of drainage areas to impart more lightness, aeration, and facilitate washing operations inside the sub-engine

Design studied to reduce the ingress of mud and debris
Compatible with simultaneous use of X-Power (Ignition and Clutch Crankcase Protection)
Protection of the side crankcases, on the water pump and in the areas of the frame footrest area
It is easily mounted by taking advantage of the frame sleeper near the mono-shock absorber and through two supplied screws that use the two original slots in the front
Possibility of simultaneous use with x-power
Two-tone nameplate with logo
Weight: 700g

FEATURES

CONSTRUCTION AND DESIGN:
Design designed for optimal protection of the chassis and motor.
Fin designed to protect the shock absorber linkage from impacts, mud and sand. It allows you to easily slide over natural obstacles (Whoops, stones, logs) ensuring a smooth ride. The design ensures maximum adherence to the link
Impact resistant material effectively protects against stones, earth and mud.
Flexible and lightweight plastic reduces vibration and surface damage to chassis and engine
The air intakes are designed to give more lightness, aeration and facilitate the washing operations inside the sub-engine, reducing the entrance of gravel, earth and mud.

Exploiting the original attacks of the bike the assembly/ disassembly is intuitive and to facilitate the normal maintenance and washing of the engine.
Extended protection areas on the side housings, on the water pump and in the chassis areas
Compatible with simultaneous use of X-Power (Ignition and clutch housing protection)

FEATURES

Last generation skid plate with built-in fin
Printed fin designed to protect the suspension link from impacts, mud and sand. It allows the bike to easily slide over natural obstacles (whoops, rocks, trunks) Its design ensures the best cover around the link, thus guaranteeing a clean ride
Plastic 6mm thick for the best frame and engine protection
Protection areas extended over the engine covers, on the water pump and on the foot peg mounts

Discharge areas to improve lightness and airflow and to ease the cleaning process behind the skid plate
Design developed to reduce the presence of mud and debris around the engine
Possibility to combine its use with X-POWER (clutch and ignition cover protection)
Carbon look refinishing
Easy mounting on the original fastenings of the bike

PRODUCT DETAILS

Skid plate realised in two joined sections: | Highly impact-resistant plastic skid plate | Fin for suspension link protection: blend rubber + plastic which allows resistance to impacts and better elasticity

Made In: Italy

SKID PLATE FOR
ROYAL ENFIELD
298645

298645-12

FEATURES

Smooth Glide Over Obstacles: Advanced under-engine design allows for easy sliding over natural obstacles such as rocks and logs, ensuring a smoother ride.	Mud and Debris Reduction: Designed to minimize the entry of mud and debris during rides.
Maximum Protection: Provides comprehensive protection for the frame and engine.	X-Power Compatibility: Can be used simultaneously with Acerbis X-Power for ignition and clutch cover protection.
Extended Coverage: Includes additional protection for side covers, the water pump, and frame areas around the footrests.	Easy Assembly: Quickly installs with the included Acerbis kit.
Ventilation and Easy Cleaning: Features exhaust areas for improved ventilation, reduced weight, and easier washing inside the under-engine area.	Durable and Lightweight: Weighs 1050 grams, offering excellent protection without excessive weight.
	Not compatible with the original Royal Enfield Engine guard bars cod. KXA00437

SKID PLATE FOR TRIUMPH 298692

298692-12

FEATURES

Latest generation skid plate made of high-strength plastic with integrated fin	Presence of unloading areas to give more lightness, ventilation and facilitate washing operations inside the skid plate
Fin designed to protect the shock absorber linkage from impacts, mud and sand allows you to slide easily over natural obstacles (whoops, stones, logs) ensuring a smooth ride	Design studied to reduce the entry of mud and debris into the engine
The design ensures maximum adherence to the link	Using the two screws supplied and using the original bike attachments, it is possible to fasten and remove the skid plate quickly.
6 mm thickness for maximum protection of the frame and engine	
Extended protection areas on the side casings, on the valve adjustment cover and in the footrest frame area
