

SKID PLATE FOR BETA

298548

298548-32

298548-12

FEATURES

Latest generation skid plate made of high-strength plastic with integrated fin	Presence of unloading areas to give more lightness, ventilation and facilitate washing operations inside the skid plate
Fin designed to protect the shock absorber linkage from impacts, mud and sand allows you to slide easily over natural obstacles (whoops, stones, logs) ensuring a smooth ride	Design studied to reduce the entry of mud and debris into the engine
The design ensures maximum adherence to the link	Compatible with simultaneous use of X-POWER
6 mm thickness for maximum protection of the frame and engine	Using the two screws supplied and using the original bike attachments, it is possible to fasten and remove the skid plate quickly.
Extended protection areas on the side casings, on the valve adjustment cover and in the footrest frame area	Weight: 885g

PRODUCT DETAILS
