

ACERBIS CHAIN
GUIDE/SLIDER KIT FOR
KTM/HUSQVARNA/GAS
GAS
298479

298479-22

298479-12

FEATURES

The Acerbis chain guide and Chain Slider guarantee impact resistance and durability thanks to the high-strength plastic material. The chain guide is made in two pieces: the body and the slide, the latter of which can be replaced once it has worn out. This division also means that the chain does not have to be disassembled when replacing the slide or the chain guide itself.

The slider reduces usage on the chain and improves its alignment, allowing smoother operation and protecting it from debris and sand. Both reduce shaking and oscillation of the chain. The controlled-elasticity design of the chain guide and slider, absorbs shock and minimizes damage to the chain and crown.

ACERBIS CHAIN
GUIDE/SLIDER KIT FOR

263076-22

263076-12

FEATURES

The Acerbis chain guide, replacing the original component, guarantees greater impact resistance thanks to the high-strength plastic material.
The guide is made in two pieces: the body and the slide, the latter replaceable once worn, also allowing you not to have to disassemble the chain when replacing the slide or the guide itself.

The controlled elasticity structure of the guide absorbs shocks and minimizes damage to the chain and crown.

ACERBIS CHAIN
GUIDE/SLIDER KIT FOR
KTM/HUSQVARNA/GAS
GAS
242114

242114-22

242114-12

FEATURES

The Acerbis chain guide, replacing the original component, guarantees greater impact resistance thanks to the high-strength plastic material.

The guide is made in two pieces: the body and the slide, the latter replaceable once worn, also allowing you not to have to disassemble the chain when replacing the slide or the guide itself.

The controlled elasticity structure of the guide absorbs shocks and minimizes damage to the chain and crown.

ACERBIS CHAIN

242114

242114-22

242114-12

FEATURES

The Acerbis chain guide, replacing the original component, guarantees greater impact resistance thanks to the high-strength plastic material.
The guide is made in two pieces: the body and the slide, the latter replaceable once worn, also allowing you not to have to disassemble the chain when replacing the slide or the guide itself.

The controlled elasticity structure of the guide absorbs shocks and minimizes damage to the chain and crown.

The Acerbis chain guide, replacing the original component, guarantees greater impact resistance thanks to the high-strength plastic material.
The guide is made in two pieces: the body and the slide, the latter replaceable once worn, also allowing you not to have to disassemble the chain when replacing the slide or the guide itself.

The controlled elasticity structure of the guide absorbs shocks and minimizes damage to the chain and crown.
